Subject: RE: I oppose Duke's latest rate hike for dirty energy

Dear Ms. Curry,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2013-59-E and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling
Administrative Assistant

Subject: I oppose Duke's latest rate hike for dirty energy

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Roberta Curry

Subject: Duke Energy rate increase

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

Duke Energy should invest in wind and solar power and other renewable fuel sources like switch grass that would help us escape looming climate change and also help build North Carolina's move to more jobs with a good future. North Carolina could show the rest of the south--even the U.S. how to move into a more energy efficient world and better employment as a wonderful extra benefit.

Sincerely,

Gail Marsh

South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians. Alternative energy is a win win for NC and also for Duke Energy. Stop using outdated methods in NC.

Sincerely,

Carol McCroskey
